

Like every smart  
hummingbird knows,  
winter is best left to  
the cold...

That's why we're heading indoors until the  
spring, when the final finishing touches on  
your property will begin.

 **TELUS**  
the future is friendly®

Did you know that some hummingbirds migrate south to escape the ice and snow?

This winter, TELUS PureFibre™ isn't going anywhere, but we are wrapping up any existing construction to our fibre optic network until the ground thaws out again. In the meantime, we will leave things neat and tidy, and come back in the spring to finish all remediation work. Thank you for your patience and cooperation while we build the future in
