## Policy Statement

Public Art is fundamental for supporting artists and connecting artistic, creative, and design ideas into public life. It promotes cultural, social, and economic value. It helps create vibrant, healthy and prosperous urban centres. Public Art is a key element in defining municipal identity and promoting sustainability. Public Art supports artists, without whom art would not exist.

The Public Art Policy provides direction for commissioning new Artworks and procuring existing Artworks in order to activate, enrich, and expand the Town of Okotoks (Town) Public Art collection. The Public Art Policy will ensure that Public Art is regularly considered, commissioned, and maintained in collaboration with all pertinent Town Business Centres.

The Public Art Policy will increase the number of Artworks and programs in the community; encourage people to engage with our built and natural environments; ensure Public Art's suitability and accessibility to all citizens and visitors to Okotoks; and enhance local vitality. Investment in Public Art supports the local economy and helps build healthy and thriving public spaces where creativity, art, design, and culture flourish.
