

Myeloma Action Month Proclamation March 2026

WHEREAS: Multiple myeloma, also known as myeloma, is a cancer of the plasma cells in the bone marrow, and

WHEREAS: Eleven (11) Canadians are diagnosed with myeloma every day. While great strides have been made in treatments and therapeutics for people living with myeloma, there is still a great need to raise awareness of this disease and fund clinical research to find a cure, and

WHEREAS: Support groups throughout Alberta and the Canadian myeloma community are committed to providing support to all people – regardless of race, ethnicity, gender, socio-economic background, or language – who are impacted by this disease, and

WHEREAS: Myeloma Action Month is an opportunity to further educate the medical community and the public on recognizing the signs and symptoms of myeloma for earlier diagnoses which can lead to better outcomes for people living with this challenging and incurable cancer.

NOW THEREFORE Members of Okotoks Town Council, do hereby proclaim March 2026 as "Myeloma Action Month" in Okotoks, Alberta
